January 31, 1994

Mr. G. G. Zech
Division of License Performance & Evaluation
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Zech:

Subject: ORGANIZATION

As part of the commitment contained in the Forward and Quality Policy Statement of Topical Report WCAP-8370, Revision 12A, Quality Assurance Plan regarding submittal to the NRC of changes, enclosed please find updated Organizational Chart. Refer to Page 62, Figure 3 of WCAP-8370 for a description of the former organizational structure. The major Energy System Business Unit organizational changes reflected in this updated chart include:

- o The reporting structure within Nuclear and Advanced Technology Division (NATD)
- o The reporting structure of the Advanced Technology Business Area (ATBA)

NATD is now termed the Nuclear Technology Division (NTD). Engineering Technology Business Area (ETBA) is now an integral part of NTD.

The Advanced Technology Business Area (ATBA) no longer reports to the NATD General Manager but reports to the Energy Systems Business Unit (ESBU) Vice President and General Manager.

These name changes and structure changes do not effect the activities being performed or personnel performing the activities. Similarly, these changes have no impact on the commitments contained in WCAP-8370, Revision 12A.

If you have any questions concerning the information in this letter, contact R. D. Petrosky, Quality Systems and Compliance Manager, Nuclear Technology Division at 412/374-6710.

Regards,

WESTINGHOUSE ELECTRIC CORPORATION

N. J. Liparulo, Manager
