

MAR 10 1994

Mr. William P. Dornsife, Director
Bureau of Radiation Protection
Department of Environmental Resources
Fulton Building, 16th Floor
Third and Locust Streets
Harrisburg, PA 17120

Dear Mr. Dornsife:

On March 30, 1993 NRC staff members and members of your staff met to discuss the proposed Limited Agreement between the NRC and Pennsylvania for the regulation of low-level radioactive waste. In that meeting, you indicated that you would be revising the timeline for completion of the Pennsylvania Agreement package and would be resubmitting it in June, along with a draft of Pennsylvania's equivalent to 10 CFR Part 71, "Packaging and Transportation of Radioactive Material." However, to this date, we have not received your response. In addition, we have another outstanding issue. We request a copy of your revised program narrative incorporating our comments raised in letter dated January 9, 1991 (copy enclosed). Under separate cover, we will address the issue of when Pennsylvania will need to have the new Part 20 in place in relationship to NRC approval of the State's application for a Limited Agreement.

If you have any questions, please give me a call at 301-504-3340.

Sincerely,

Original Signed By
