

UNITED STATES NUCLEAR REGULATORY COMMISSIONENTERGY OPERATIONS, INC.DOCKET NO. 50-382NOTICE OF PARTIAL WITHDRAWAL OF APPLICATION FOR
AMENDMENT TO FACILITY OPERATING LICENSE

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Entergy Operations, Inc. (the licensee) to partially withdraw its May 8, 1991, application as supplemented by letters dated March 6, 1992, and January 28, 1993, for proposed amendment to Facility Operating License No. NPF-38 for the Waterford Steam Electric Station, Unit 3, located in St. Charles Parish, Louisiana.

The amendment revised the Technical Specifications (TSs) by revising the fuel oil amounts in the feed and storage tanks for the emergency diesel generators, clarifying the testing for the interconnecting piping, and revising the specific gravity of the fuel oil.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the FEDERAL REGISTER on June 26, 1991, (56 FR 29274) as revised April 14, 1993, (58 FR 19478). However, by supplemental letter dated March 6, 1992, the licensee partially withdrew the proposed change pertaining to the revised frequency of testing of the diesel generator.

For further details with respect to this action, see the application for amendment dated May 8, 1991, as supplemented by letters dated March 6, 1992, (which partially withdrew the application for license amendment), and January 28, 1993. The above documents are available for public inspection at the Commission's

Public Document Room, 2120 L Street, NW., Washington, DC 20555, and at the local public document room located at the University of New Orleans Library, Louisiana Collection, Lakefront, New Orleans, Louisiana 70122.

Dated at Rockville, Maryland, this 16th day of March 1994

FOR THE NUCLEAR REGULATORY COMMISSION

David L. Wigginton, Senior Project Manager
Project Directorate IV-1
