SUBJECT: COMPILATION OF DATA ON MISADMINISTRATION REPORTS,
NOVEMBER 10, 1980 - SEPTEMBER 30, 1981

AEOD has reviewed those misadministration reports for the period November 10, 1980 through September 30, 1981 that were received by this office. We are enclosing a compilation of data derived from our review. The data shows the distribution of misadministrations by type (defined in NRC regulations 10 CFR 35.41-.45), and include a breakdown of probable contributing causes and corrective actions proposed by the licensees.

AEOD recommends that NMSS arrange to feed back these data to appropriate NRC licensees. We also recommend that SP feed information on misadministrations back to the Agreement States, using the document that NMSS develops to feedback information to NRC licensees.
