MEMORANDUM FOR: Richard H. Wessman

FROM: Norman C. Moseley, Chairman, SALP Review Group

SUBJECT: MIDLAND HEARINGS AND DISCUSSION OF SALP ASSIGNMENT

EXTRA

I have received your memorandum of December 18, 1981 (copy enclosed) which identified some corrections to the Midland assessment given in NUREG-0834.

The corrections identified appear to be accurate. However, I do not believe they affect the evaluation in any significant way, and I understand that your testimony has updated the Midland hearing record with respect to these matters. Accordingly, I do not consider a revision to NUREG-0834 to be appropriate, and consider the matter closed.

The other members of the SALP Review Group are being informed by copy of this memorandum.

Norman C. Moseley, Chairman
