Power**  
CORPORATION

February 7, 1983  
3F-0283-05

Mr. H. R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Subject: Crystal River Unit 3  
Docket No. 50-302  
Operating License No. DPR-72  
Technical Specification Change Request No. 107

Dear Mr. Denton:

Florida Power Corporation hereby submits three (3) originals and forty (40) copies of Technical Specification Change Request No. 107, requesting amendment to Appendix A of Operating License No. DPR-72. Included with this request are the proposed replacement pages.

Change Request No. 107 will correctly place the Emergency Feedwater Ultrasonic Flow Indicators (EFW) with the other Post Accident Sampling Instruments in Specification 3.3.3.6, rather than the EFW system Specification 3.7.1.2.

Florida Power Corporation has determined the requested action involves a Class III amendment, per 10 CFR 170.22, in that it involves a single safety issue. Accordingly, the license amendment fee of four thousand dollars (\$4,000) is enclosed.

Also enclosed is a copy of the Certificate of Service for Technical Specification Change Request No. 107 to the Chief Executive of Citrus County, Florida.

Sincerely,

G. R. Westafer  
Manager  
Nuclear Licensing and Fuel Management

PGH/lmg
