

Docket 40-6940
License SMB-920

MAR 21 1994

Mr. William Gannon
Radiation Safety Officer
Cabot Corporation
County Line Road
Boyertown, Pennsylvania 19512-1608

Dear Mr. Gannon:

SUBJECT: REVISED RENEWAL APPLICATION (TAC. NO. L10014)

We have received your revised renewal application for Materials Licenses SMB-920 and SMC-1562 transmitted by letter dated March 16, 1994. In your letter you indicated that some areas of the license application are "still undergoing modification and refinement." Based on our telephone conversation on March 17, 1994, you indicated that these areas pertain to the Reading and Revere sites and not the Boyertown site.

The review of SMB-920 will be conducted under the auspices of the Licensing Branch, Division of Fuel Cycle Safety and Safeguards. I have forwarded a copy of the license application to the Division of Low-Level Waste Management and Decommissioning, which is responsible for administering Materials License SMC-1562.

If you have any questions, I can be reached at (301) 504-1867. Please reference the above TAC No. in future correspondence related to the renewal of Materials License SMB-920.

Sincerely,

Original Signed By:

Richard Milstein
Licensing Section 2
Licensing Branch
