Dear Mr. Salmon:

Subject: Meeting Report No. 50-333/93-29 (Enforcement Conference)

This letter refers to the special reactive safety inspection conducted by Mr. J. Noggle of this office on December 13 - 20, 1993, and to the subsequent enforcement conference held at the NRC Region I office, King of Prussia, Pennsylvania, on February 25, 1994. The inspection was conducted to examine the events surrounding the arrival of a contaminated radioactive shipment container at the Barnwell Disposal Facility at Barnwell, South Carolina on December 10, 1993. This shipment originated from your facility on December 8, 1993.

The enforcement conference was held as a result of the findings of the inspection and was attended by you and members of your staff. The following matters were discussed during the enforcement conference: the licensee's evaluation of the event, causes, corrective actions, safety significance, and the licensee's perception of the appropriateness of the apparent violation relative to criteria outlined in the NRC Enforcement Policy (10 CFR Part 2, Appendix C). The conference was open to the public. A copy of the tape of the enforcement conference report will be placed in the PDR.

The enclosed Enforcement Conference Report provides additional details regarding the above matters and related topics discussed at this conference.

No reply to this letter is required. You will be notified of our evaluation of appropriate enforcement action at a later date.
