Docket No. 50-461

Illinois Power Company
ATTN: J. S. Perry
Senior Vice President
Clinton Power Station
Mail Code V-275
P. O. Box 678
Clinton, IL 61727

Dear Mr. Perry:

Thank you for your 10 CFR 50.54(a) submittal dated July 14, 1993, which incorporates changes in your Quality Assurance (QA) Program description. We have reviewed the changes associated with this submittal and have identified several reductions in commitment. The reductions included a change in the independent audit frequency of the QA organization and program from annually to biennially, and the elimination of the QA organization from many administrative in-line review functions. However, we understand that there will be no reduction in the scope or frequency of audits performed by the QA organization as a result. These changes were discussed between C. E. Calhoun of your staff and R. A. Langstaff of this office on February 15, February 17, and March 14, 1994. Based on our review of your submittal, we concluded that these revisions continue to meet the requirements of 10 CFR Part 50, Appendix B, and are acceptable. If there are changes to QA commitments existing in docketed correspondence outside of the Quality Assurance Program description, you are obligated to notify this office.

We appreciate your timely submittal of information required by 10 CFR 50.54(a). Please contact Mr. B. Burgess of my staff at (708) 829-9705 with any questions you may have regarding this matter.

Sincerely,

Mark A. Ring, Chief
Operations Branch
