RE: 12-24867-01

Dear Mr. Lee:

On February 7, 1994, I sent you a letter with a check to amend license condition # 2 and # 10 to read with our new address. I thought that it may be important that you receive a letter from the owner of the building stating that he is aware and approves of the storage of radioactive material here at 309 W. Hillgrove Avenue, La Grange IL. He has also been given a diagram showing where the gauge(s) is being stored within the premises.

Please note that all radioactive material (two roof gauges) have been removed from our old office at the La Grange Professional Building, 110 N. La Grange Road, La Grange IL 60525.

I hope that this satisfies all the requirements. Thank you.

Sincerely,

Sandra S. Barrows
Radiation Safety Officer

RE: Storage of a nuclear survey gauge at 309 W. Hillgrove Avenue, La Grange IL

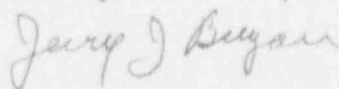

Dear Mr. Lee:

I, owner of the property located at 309 W. Hillgrove Avenue, La Grange IL, am fully aware that the company of Mac Brady Associates, Inc., wants to store a gauge that surveys moisture content in roofs and that it does contain a nuclear source. I understand that this is a contained source and poses no threat to the environment or to any persons.

I have received a map of the location of the gauge within the office. I understand that the U.S. Nuclear Regulatory Commission, the State of Illinois-Nuclear Division, the Fire Chief of La Grange and the Police Chief of La Grange have all been notified.

Therefore, I am aware of the storage and give my approval.

Sincerely,

Jerry J. Burjan
