

JAN 04 1983

Docket No. 99900784/82-01

Chicago Bridge & Iron Company  
ATTN: Mr. L. I. Christofferson  
Plant Manager  
550 West 17th South  
Salt Lake City, Utah 84115

Gentlemen:

Thank you for your letter of September 16, 1982, in response to our letter dated August 19, 1982. We must apologize for the delay in our response which resulted, in part, from extended absence of the inspector from the office. As a result of our review, we find that the following additional information is needed with respect to the items in the Notice of Nonconformance:

1. General - Please identify how the instructions to personnel which are referenced in your responses to items A, B, C, D.1, E, F, G, and H were documented, in that it is necessary for us to be able to verify implementation of committed corrective actions.
2. Item A - Please provide the specific actions that have been taken which will preclude future shipments of assemblies that contain uncorrected nonconforming conditions.
3. Items D.1 and H - Please provide the system changes that have been made with respect to repair welding which will assure future compliance with QA program and procedural requirements.

Please provide this additional information within 25 days from the date of this letter in order that we may complete our review in a timely manner.

Sincerely,

bcc:
