

PDR-016

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

August 6, 1982

Mr. Vincent M. Igoe
722 Chestnut Street
Suite #800
St. Louis, MO 63101

IN RESPONSE REFER
TO FOIA-82-346

Dear Mr. Igoe:

This is in response to your letter dated July 22, 1982, in which you requested, pursuant to the Freedom of Information Act, copies of all inspections made by OSHA of the Union Electric Callaway County Nuclear Power Plant, and any related documents. You also requested "any information regarding how you go about letting the employees of Daniel International know beforehand that you're coming to make an inspection".

You also asked:

"Is there some document or other means of identifying when, where, and how they were notified in advance that your inspectors were coming?"; and

"Also we would like to know if any action would be taken by OSHA if enough sworn statements are produced to establish this allegation."

In response to your request, we have determined that the NRC does not have any records or documents on inspections made by OSHA of the Union Electric Callaway County Nuclear Power Plant, Callaway County, Missouri. I have been advised by our Region III office in Glen Ellyn, Illinois, that the NRC does not make any announcements that an upcoming NRC inspection is planned at any nuclear facility. Our Region III office has advised us, further, that it does not know if OSHA notifies personnel in advance of an OSHA inspection of a facility.

We suggest you may want to direct your inquiry on these matters to OSHA at the following address:

Mr. James Foster
Director of Information and Consumer Affairs (OSHA)
Room N3637
Francis Perkins DOL Building
200 Constitution Avenue, N.W.
Washington, DC 20210

Office telephone number: (202)523-8148

This completes our action on your request.

Sincerely,

J. M. Felton, Director
Division of Rules and Records
Office of Administration
