IN RESPONSE REFER  
TO FOIA-82-292

Dear Mr. von Stackelberg:

This is in response to your letter dated June 25, 1982, in which you requested, pursuant to the Freedom of Information Act, copies of Nuclear Regulatory Commission records concerning the four categories of information described in your request which relate to the use of radioactive materials as radiological weapons.

We have not located any documents in the files of the Nuclear Regulatory Commission that are subject to any of the four categories described in your letter.

The United States nuclear materials production program and the military applications program, as they were administered by the U.S. Atomic Energy Commission prior to January 19, 1975, were transferred to the Energy Research and Development Administration (ERDA) on that date. Subsequently, the ERDA organization became a part of the present Department of Energy.

Since the subject areas of your Freedom of Information Act request do not fall within the purview of the NRC, you may wish to communicate with the Department of Energy, or the Department of Defense. These agencies may be contacted by writing to the following addresses:

Mr. Milton Jordan, Director #252-5955  
Division of FOI & PA Activities  
Department of Energy  
Forrestal Building Room 1G051  
1000 Independence Avenue, S.W.  
Washington, DC 20585

Mr. Peter von Stackelberg

Mr. Charles W. Hinkle, Director #697-4325  
Freedom of Information & Security Review  
Office of the Assistant Secretary of Defense  
Department of Defense  
Pentagon, Room 2C-757  
Washington, DC 20301

This completes our action on your request.

Sincerely,

A handwritten signature in black ink, appearing to read "J. M. Felton", is written over the typed name and title.
