Nuclear Regulatory Commission,
Washington, DC

OFFICE OF SECRETARY,
DOCKETING & SERVICE
BRANCH

Dear Commission members,

Only full clean-up offers meaningful protection of the public from radiation hazards. We do not want your permissive standards.

- 1) a pre-determined (BRC) radiation exposure limit for sites
- 2) overall risk goals without set exposure limits
- 3) "best-effort" clean-ups
- 4) return of site to background radiation levels

ERROR (Enhanced Rulemaking on Residual Radiation) is a big mistake

Don't sell us the sizzle. We want clean-up of all contaminated sites and no deregulation.

Sincerely

Melanie Moorhead
