

NOTICE OF VIOLATION

Wisconsin Electric Power Company
Point Beach Nuclear Plant

Docket Nos. 50-266; 50-301
License Nos. DPR-24; DPR-27

During an NRC inspection conducted from January 19 through February 28, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions", 10 CFR Part 2, Appendix C, the violation is listed below:

1. 10 CFR 50, Appendix B, Criterion V, "Instructions, Procedures, and Drawings," requires that procedures include appropriate quantitative or qualitative acceptance criteria for determining that important activities have been satisfactorily accomplished.

Contrary to the above, on or about February 3, 1994, procedure RMP 43, "Diesel Annual Inspection," did not contain appropriate acceptance criteria with respect to clearances and interference in rotating machinery to identify that maintenance had been improperly performed on the G01 diesel generator.

This is a Severity Level IV violation (Supplement 1).

Pursuant to the provisions of 10 CFR 2.201, Wisconsin Electric is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region III, and a copy to the NRC Resident Inspector, within 30 days of the date of the letter transmitting this Notice. This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or if contested, the basis for disputing the violation; (2) corrective action taken and the results achieved; (3) corrective action to be taken to avoid further violations; and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, a demand for information may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration may be given to extending your response time.
