Dear Mr. Frazee:

We have reviewed the wording of the definitions contained in your letter of March 2, 1994. The definitions were reviewed in comparison to the equivalent ones in the *Suggested State Regulations for the Control of Radiation (SSR)*, and the equivalent NRC definitions in 10 CFR Part 19 and 20. We have no further comments at this time.

Please recall that the Commission has not made a final determination of the compatibility requirements for the Part 20 rules. Also, please note that a contractor will be performing a detailed comparison of 10 CFR Part 20 and the equivalent rules of each Agreement State. We are requesting that you send us a copy of your final rules, when adopted. To facilitate the review, we request one printed copy of the rules plus a copy on a 3.5 inch diskette. Please send these to the attention of Mr. Dennis Sollenberger.

If you have any questions regarding the comments or any of the rules reviewed, please contact me or Mr. Richard Blanton of my staff at (301) 504-2322.

Sincerely,
