MEMORANDUM FOR: Glen D. Brown, Chief, Technical Inspection Branch  
THRU: R. J. Everett, Chief, Material and Fuel Radiation Protection Section  
FROM: D. B. Spitzberg, Radiation Specialist  
SUBJECT: FOLLOWUP ON EXPIRED LICENSE NO. 35-10537-01

An attempted followup per MC 83895B on Byproduct Material License 35-10537-01 (expired 12/31/73) issued to Edward L. Koger, M.D. was made. The licensee's telephone number was not listed and contact could not be made. Authorized material was Groups I and II of Schedule A, Section 35.100, I-131, P-32, and Au-198. With the exception of any potential possession of Co-60 (application limit 1 mCi, T<sub>1/2</sub>=5.2y) all authorized material will have fully decayed since the expiration date. For this reason, I recommend this license be terminated with no further action.
