SUBJ: BWR design generic issues

Gentlemen/Ms,

I request that the NRC please furnish me with a list of all known BWR design generic issues still pending resolution as well as those the NRC considers "resolved" during the past year. As a point of clarification, the term "design generic issues" is to be interpreted as design deficiencies.

For those generic issues which have not yet been resolved, I ask that your office also provide me with a brief list of interim actions to be initiated until the design deficiencies have been resolved.

Thank you for your time and awaiting your response,

Sincerely,

Bill Hafner

follow up letter-- direct quote of above-- sent to NRC on 05 Feb 82.
