Gentlemen:

Subject: Report No. 50-261/82-33

This refers to your letter of December 2, 1982, informing us of steps you have taken to correct violations concerning activities under NRC License No. DPR-23 brought to your attention in our letter of November 2, 1982. Due to the number of violations identified during this inspection and their similarity to certain previous violations, Region II specifically requested that you describe in particular those actions taken or planned to improve the effectiveness of your quality assurance program. This request was not addressed in your response. In addition, the response to Item E in the Notice of Violation did not address the total scope of Audit QAA/20-28 Concern 3 relative to deficiencies identified with EI-15 and EI-18.

Based upon a telephone conversation between the Region II staff and the Manager of Corporate Quality Assurance Department on December 9, 1982, we understand that a supplemental response addressing these issues will be sent to this office by December 31, 1982.

Sincerely,

Original signed by Lewis
