Richland, Washington 99352

JUN 25 1982

Mr. Donald A. Nussbaumer
Assistant Director for
State Agreements Program
Office of State Programs
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Nussbaumer:

INSPECTION OF PLUTONIUM - BERYLLIUM NEUTRON SOURCES

In response to your May 11, 1982, letter, reference SA/LAB, we enclose the list of RIS's to which our notice was mailed. The list was compiled from the NMMSS Report # SS-2, obtained from Union Carbide Corporation, CSD/ORGDP, Oak Ridge, Tennessee.

We discussed the notice with Vandy Miller, NMMSS/NRC, and reached agreement on its content prior to distribution. Several recipients of the notice have asked for help in contacting qualified nondestructive testing personnel. You may wish to include such direction in your advisory notification.

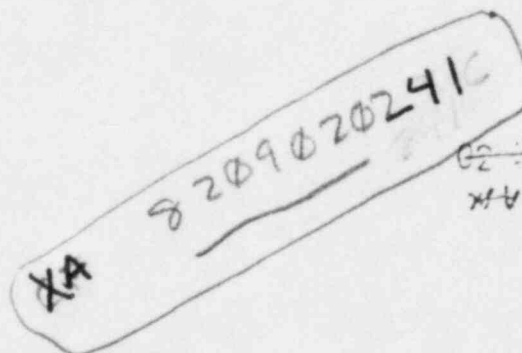

If we can be of further help to you, contact Arlene Peterser of my staff on FTS 444-6709.

Very truly yours,

George J. Miskho
George J. Miskho, Director
Nuclear Materials Production Division
