SUMMARY

Scope: The areas examined during this routine material control and accounting (MC&A) safeguards inspection included MC&A system management and assessment, internal controls, measurement systems, measurement controls, and records and reports. Corrective actions taken in response to problems identified in previous inspections were also examined.

Results: Within the scope of the inspection, two violations and one non-cited violation were identified (see Enclosures 3 and 4). In addition, three new inspector follow-up items were opened, six follow-up items were closed and three remain open.
