I have also enclosed a copy of my November 17, 1993 memorandum for your information. You will note that Mr. Paperiello expresses an interest in his memorandum, relative to Issue I, regarding the number of Agreement States who have requirements for therapy administrations similar to those proposed. He is also interested in successes and problems that the Agreement States have noted with the implementation of these requirements. With respect to Issue 3, additional information regarding various Agreement States requirements relative to materials inspections would also be appreciated.
