Docket Nos. 50-327  
and 50-328

Tennessee Valley Authority  
ATTN: Mr. H. G. Parris  
Manager of Power  
500A Chestnut Street - Tower II  
Chattanooga, Tennessee 37401

Gentlemen:

By letter dated December 23, 1982, the Division of Licensing (DL) staff approved your request dated October 13, 1982, for relief from the ASME Section XI requirement to hydrostatically pressure test the replacement portions of the Sequoyah Essential Raw Cooling Water System. Fees pursuant to 10 CFR 170.22 were not remitted with your request.

Based on information provided by the DL staff as the result of their final review of your request, it has been determined that a Class III fee of \$4,000 is appropriate for it because the review involved consideration of a single safety issue. Since the request was site related and did not require unit-specific reviews and/or license amendments for each unit, we have concluded that the Class I duplicate unit fee of \$400 should not be assessed. Therefore, the Authority is requested to remit the sum of \$4,000 to this office.

Sincerely,

Original Signed by:  
Reba M. Diggs
