MEMORANDUM FOR: William O. Miller, Chief  
License Fee Management Branch

FROM: Kristin B. Westbrook, Project Manager  
Licensing Branch I  
Uranium Recovery Field Office  
Region IV

SUBJECT: FEE EXEMPTION FOR AMENDMENT SUA-1400, NO. 6

Amendment No. 6 was a reissuance of the same License Condition (No. 17) as was amended in Amendment No. 5. Amendment No. 6 is essentially the same as No. 5, the difference being that NRC approval in writing is no longer required prior to starting and stopping the specified post restoration groundwater stability monitoring.

A review of ISL projects finds we haven't been requiring such written approval. To make our licensing requirements consistent, the NRC staff initiates this amendment and it is exempt from fees.
