As a result of the inspection conducted on January 14, 1983, and in accordance with the NRC Enforcement Policy (10 CFR 2, Appendix C), the following violations were identified:

Condition 17 of License No. 37-21067-01 requires that licensed material be possessed and used in accordance with the statements, representatives, and procedures contained in an application dated March 29, 1982, as amended May 26, 1982.

Item 6.(f) of the March 29, 1982, application requires that the licensee's training program be administered according to Attachment No. 5 entitled, "Training Requirements For Personnel With Previous Radiographic Experience."

1. Paragraph 1 on page 65 of Attachment No. 5 requires that at least eight (8) hours of classroom training be given to all radiographers and radiographer's assistant on an annual basis.

Contrary to the above, as of January 14, 1982, two radiographers employed by the licensee had not received eight (8) hours of classroom training since December 16, 1981, and December 29, 1981, respectively, a time period in excess of one (1) year.

Contrary to the above, as of January 14, 1983, the licensee had not administered the required annual examination.

These are Severity Level IV violations (Supplement VI).
