

SEP 2 1982

Docket: 50-382/82-15

Louisiana Power and Light Company  
ATTN: L. V. Maurin, Vice President  
Nuclear Operations  
142 Delaronde Street  
New Orleans, Louisiana 70174

Gentlemen:

This refers to the May 11-14/25-27, 1982, preoperation inspections of the licensee's progress in procedures based upon the approved security plan. The inspection was conducted by Mr. James A. F. Kelly, of this office, of activities authorized by NRC Construction Permit CPPR-103. It further refers to the discussion of our findings with members of your staff at the conclusion of the inspection.

The inspection related to your program and activities designed to protect against industrial sabotage and to safeguard special nuclear material. The inspection was based on the applicable provisions of Title 10, Part 50 of the Code of Federal Regulations entitled "Licensing and Utilization Facilities," within Part 73 entitled "Physical Protection of Plants and Materials," and the specific requirements of NRC Construction Permit CPPR-103. Areas examined during the inspection and our findings are documented in the enclosed inspection report. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of these inspections, no violations or deviations were identified.

The documentation of findings of your control and accounting procedures for safeguarding special nuclear materials and your facility's security procedures are exempt from disclosure. This exemption is covered within Title 10 CFR Part 73.21, entitled "Protection of Unclassified Safeguards Information." Therefore, the inspection report will not be placed in the Public Document Room and distribution will be limited.
