Inspection Summary

Inspection conducted May 11-14/25-27, 1982; Report: 50-382/82-15

Areas Inspected: Nonroutine, announced inspection of the Security Plan and Implementing Procedures; Security Organization - Personnel; Security Program Audit; and Testing and Maintenance. The inspection involved 27 inspector-hours by one NRC inspector.

Results: Within the four areas inspected, no violations or deviations were identified. The licensee is making satisfactory progress toward being in compliance with NRC requirements when they take fuel for storage and then operation.
