RE: **Schedule for Response to NRC
Inspection Report 99900271/93-01**

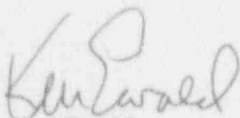

Dear Mr. Rossi:

Rosemount Nuclear Instruments, Inc. (RNII) plans to respond to the Inspection report as follows. First, RNII will reply to the Notice of violation by April 4, as called for in the Notice. Second, RNII plans to respond to the Notice of Nonconformance by May 3. The additional time is required to insure that our response is thorough, complete and addresses the findings set forth in the Notice of Nonconformance.

With respect to the Enforcement Conference, we welcome the opportunity to meet with NRC on this issue. We would request that the Enforcement Conference be scheduled to take place in the August time frame. Tentatively, we would propose Aug. 4 or Aug. 11 as potential conference dates. We base this request on two major reasons. First, preparation for the Enforcement Conference will take significant efforts, over and above preparing the responses to the Notice of Violation and the Notice of Nonconformance. Second, and perhaps more important, RNII must totally relocate its business operations as a result of the recent sale of Rosemount's Aerospace Division and the subsequent reorganization of the Rosemount companies. The RNII relocation, scheduled for June, will involve a major commitment by the entire RNII management to move all RNII operations without disrupting on-going commercial activities.

In summary, RNII intends to address every aspect of the Report as thoroughly and completely as is possible. We are confident the schedule detailed in this letter allows our organization adequate time to do so, given ongoing business priorities. We are eager to resolve all of the issues identified expeditiously and are working diligently to do so.

Sincerely,

Ken Ewald
Business Unit Manager
