King of Prussia, PA 19406

Dear Mr. Sisco:

This memo is to formally withdraw the request to conduct an NRC simulator re-exam for one Reactor Operator (RO) candidate the week of March 7, 1994. This request is being made due to the candidate's failure to successfully complete the in-house audit examination process. It is our request to include re-examining this individual with our current License Operator Class, presently scheduled to complete their NRC examination the week of August 29, 1994. The addition of this candidate will bring the total number of candidates to be examined to twelve (12) (6 RO's, 3 Instant SRO's, and 3 Upgrade SRO's).

If there are any questions, please call Dennis W. McClellan at 717-456-3204.

Sincerely,

John J. Stankiewicz
