NRC LICENSE FEES

As you know, the Commission discussed the matter of license fees on November 3, 1981, and requested the staff to provide revised manpower rates based on actual costs incurred for Fiscal Year 1981. Accordingly, please allocate the time spent by the Office of the Executive Director in FY 1981 workload as follows:

Office of Executive Director for Operations Allocation (%) to the Following Offices

	<u>% Allocation</u>
Nuclear Reactor Regulation	
Nuclear Materials Safety & Safeguards	
Inspection and Enforcement	
Nuclear Regulatory Research	
All other Offices reporting to EDO	
Total	<u>100%</u>

The Commission's guidelines require that each office explain the basis for the distribution listed above. We have enclosed a copy of your submittals to us dated February 16, and 23, 1977, which were used in the last revision of the fee schedule.

If you find after an examination of effort that a pro-rata distribution of your costs, based on Regulatory manpower, is appropriate, please provide a statement to this effect along with an explanation of how the determination was made. Based on the urgency of this matter, we would appreciate your response by c.o.b. November 9, 1981.
