Mail Stop 403, One White Flint

Gentlemen:

Subject: REQUEST FOR CHANGE IN THE FUNDAMENTAL NUCLEAR MATERIAL
CONTROL PLAN

Reference: NRC License SNM-1097, Docket 70-1113

With reference to activities authorized by NRC License SNM-1097 at the GE fuel fabrication plant in Wilmington, North Carolina, GE submits the attached FNMCP changes pursuant to 10 CFR 70.32(c), which do not decrease the effectiveness of the current MC&A program.

Pursuant to 10 CFR 2.790(d), GE requests that the attachments to this letter be withheld from public disclosure as they contain information which identifies GE procedures for safeguarding licensed SNM.

Attachment 1 describes changes before revision and are identified by section and page number. Attachment 2 contains the latest revision and date. Changes pertaining to this revision are marked with an asterisk. Attachment 3 contains the revised FNMCP pages with changes identified with an asterisk in the right-hand margin.

GE personnel would be pleased to discuss this matter further with you and your staff as you may deem necessary.

Very truly yours,

GE NUCLEAR ENERGY

T. Preston Winslow, Manager
Emergency Preparedness, Security,
Material Control & Accounting
