Subject: RDFREE: A Fortran Utility for Format-Free Input, User's Guide
Intermediate Milestone 20-3702-065-205

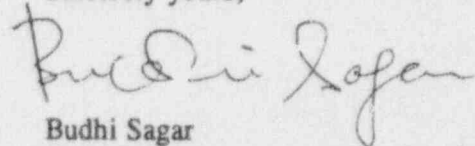

Dear Dr. Coplan:

This letter transmits to you the subject document for use by other members of the Iterative Performance Assessment (IPA) team. It represents the result of ongoing work in Subtask 5.2 on Overall Performance Assessment Modeling.

The code provides a powerful utility for format-free data input to performance assessment computer programs. We anticipate that this code will be particularly useful in the IPA work (such as during development of consequence modules), but it may find broader use as well.

Please contact me or Mr. Ron Janetzke if you have any questions regarding this matter, or if NRC staff members need a copy of the code. We look forward to receiving feed back from users of this code.

Sincerely yours,

Budhi Sagar
Manager - Performance Assessment
& Hydrologic Transport
