Gentlemen:

This refers to your letter dated December 14, 1982, regarding construction of two additions to the existing process building. We have determined that such construction would not affect the quality of the human environment; thus, you will not have to submit environmental information to cover construction of the additions.

This letter does not authorize introduction of SNM into the new additions.

Enclosed for your information is a copy of our Safety Evaluation Report (SER).

Original Signed by
