Mr. John B. Martin
Administrator
Nuclear Regulatory Commission Region III
801 Warrenville Road
Lisle, Illinois 60532-4351

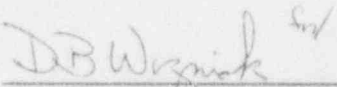

Dear Mr. Martin:

Enclosed is the Radioactive Effluent Report for January through December, 1993 for Zion Nuclear Station Docket Numbers 50-295 and 50-304.

This report complies with the submission date of April 1 of the following year per ODCM Section 12.6.2. However, upon further review it was determined that the actual due date of this report is governed by a statement in 10 CFR 50.36.a which states, "the time between submission of reports must be no longer than 12 months". This current report does not meet this requirement since the last effluent report was submitted in February of 1993.

Two copies of this report are provided for your use. Two copies are being forwarded to the Document Control Desk and one copy is being forwarded to the Resident Inspector.

Sincerely,

E. A. Broccolo
