Re: Chemetron Corporation
Docket No. 40-8724
License No. SUB-1357

Dear Mr. Johnson:

This letter is in response to your request regarding an application to amend the captioned license to require Chemetron's implementation of its remediation plan for the Harvard and Bert Avenue sites. As you know, Chemetron's "Site Remediation Plan Chemetron Remediation Project, Harvard and Bert Avenue Sites, Chemetron Corporation, Inc., Newburgh Heights, Ohio," was originally submitted on October 1, 1993 and was supplemented on November 1, 1993, and November 11, 1993. Responses to NRC comments were provided on February 7, 1994, and March 2, 1994. The NRC is presently reviewing the proposed Remediation Plan. We, therefore, request that when all comments and conditions have been mutually resolved between Chemetron and the NRC, you amend License No. SUB-1357 to authorize Chemetron to conduct the proposed remediation after all necessary regional, state and local permits or approvals are obtained, in accordance with the "Site Remediation Plan Chemetron Remediation Project, Harvard and Bert Avenue Sites, Chemetron Corporation, Inc., Newburgh Heights, Ohio," dated October 1, 1993, as supplemented.

If you have any questions regarding this matter, please let me know.

Very truly yours,

David R. Sargent

David R. Sargent
President
