REGION VICE

Mr. R. Thomas, Chief
Materials Radiation Protection Section
Nuclear Regulatory Commission
Region V
1450 Maria Lane, Suite 210
Walnut Creek, CA 94596

Dear Mr. Thomas:

Your letter of January 19, 1983 informed Kaiser Foundation Hospital that as a result of the December 13, 1982 inspection, the violation that no annual radiation safety training was provided to nursing or general housekeeping staff was identified.

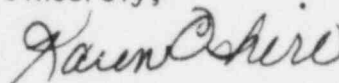

To correct this violation, Kaiser Foundation Hospital has contracted with Gamma Corporation to provide this training annually. On February 8, 1983, a nursing inservice will be conducted using a slide presentation titled "Nursing Care for Radionuclide Therapy Patients".

On February 9, 1983 a training session for Maintenance, Housekeeping and Security will be conducted using the videotape presentation "Radiation Protection for Support Personnel". These audiovisual materials are available whenever needed for new staff or those unable to attend the above scheduled meetings.

The date when full compliance will be achieved is February 9, 1983. These actions have been reviewed by the Radiation Safety Committee and implementation of the training program will be monitored during semi-annual audits.

If you need further clarification or information, please contact me.

Sincerely,

Karen Oshiro
Administrative Assistant
