Dear Mr. Hebert:

On behalf of my client, Native Americans for a Clean Environment, I am enclosing comments on Sequoyah Fuels Corporation's Draft RCRA Facility Investigation Work Plan by NACE's consultants, the Institute for Energy and Environmental Research and L. Lehman & Associates. Additional comments prepared by NACE are being forwarded to you under separate cover.

Please note that although the comments of L. Lehman & Associates refer to the area under investigation as the "site" rather than the "Facility" or area within the "Facility boundary," the commenter used the term "site" in a general way and did not intend to adopt SFC's improper use of that term to convey an overly narrow conception of the area that must be investigated.

Please do not hesitate to call me or Lance Hughes if you have any questions about these comments.

Sincerely,

Diane Curran
