Dear Mr. Andrews:

SUBJECT: EVALUATION AND CONCLUSION REGARDING THE REPLY TO THE NOTICE OF NONCONFORMANCE (NRC INSPECTION REPORT NO. 99901263/93-01)

I am responding to Consolidated Power Supply Company's (CPS's) March 4, 1994, reply to the Notice of Nonconformance that was issued by the U.S. Nuclear Regulatory Commission (NRC) on February 10, 1994, following an NRC inspection of CPS's facility in Birmingham, Alabama.

The Notice of Nonconformance identified certain CPS activities which failed to comply with the requirements of Appendix B to Part 50 of the Code of Federal Regulations (10 CFR). Your reply to the Notice of Nonconformance and corrective action taken were determined to be adequate for all the nonconformances identified.

We will review the implementation of your corrective action to prevent recurrence, as described in your reply to the Notice of Nonconformance, during a future inspection to ensure that full compliance to 10 CFR Part 50 has been achieved and will be maintained.

In accordance with Section 2.790 of 10 CFR, "Rules of Practice," a copy of this letter will be placed in the NRC's Public Document Room.

If you have any questions concerning this inspection and this reply, we will be glad to discuss them with you.

Sincerely,
