Docket No. 50-440

Docket No. 50-441

The Cleveland Electric Illuminating
Company
ATTN: Dalwyn R. Davidson
Vice President - System
Engineering and Construction
Post Office Box 5000
Cleveland, OH 44101

Gentlemen:

This refers to the special safety inspection conducted by Mr. D. H. Danielson and other staff members of this office on July 19-23, 26-30, and August 16-17, 1982, of activities at Perry Nuclear Power Plant, Units 1 and 2, authorized by NRC Construction Permits No. CPPR-148 and No. CPPR-149, and to the discussion of our findings with Mr. M. R. Edelman and others of your staff at the conclusion of the inspection.

The purpose of this special team inspection was to assess the adequacy of certain aspects of the quality assurance/construction activities at the Perry Nuclear Power Plant. The scope of this assessment included audits of quality assurance program interfaces and overview, corrective action systems, design change control, material traceability of installed structures and components, inprocess inspections, and effectiveness of quality control inspectors. Within these areas the inspection consisted of a selective examination of procedures and representative records, observations,

and interviews with personnel. One item of noncompliance and other findings were identified with selected contractors. We would expect you to review these areas with all of your contractors and assure similar situations do not exist. In general, within the areas inspected, the quality assurance program for the Perry Nuclear Power Plant appears to be satisfactory; however, procedural modifications and clarifications are required to strengthen your program for design control.

The activities that appeared to be in noncompliance with NRC requirements are specified in the enclosed Appendix. A written response is required.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter, the enclosures, and your response to this letter will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractors) believe to be exempt from disclosure under 10 CFR 9.5(a)(4), it is necessary that you (a) notify this office by telephone within ten (10) days from the date of this letter of your intention to file a request for withholding; and (b) submit within twenty five (25) days from the date of this letter a written application to this office to withhold such information. If your receipt of this letter has been delayed such that less than seven (7) days are available for your review, please notify this office promptly so that a new due date may be established. Consistent with Section 2.790(b)(1), any such application must be accompanied by an affidavit executed by the owner of the information which identifies the document or part sought to be withheld, and which contains a full statement of the reasons which are the bases for the claim that the information should be withheld from public disclosure. This section further requires the statement to address with specificity the considerations listed in 10 CFR 2.790(b)(4). The information sought to be withheld shall be incorporated as far as possible into a separate part of the affidavit. If we do not hear from you in this regard within the specified periods noted above, a copy of this letter, the enclosures, and your response to this letter will be placed in the Public Document Room.

SEP 10 1982

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

"Original Signed by C.E. Norelius"

C. E. Norelius, Director
Division of Engineering and
Technical Programs
