February 9, 1983

Mr. Walter P. Haass, Chief  
Quality Assurance Branch  
Division of Engineering  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Haass:

In compliance with the organizational change notification requirements, we are providing the following information concerning organization changes within the Engineering Services Segment of the Utility Power Generation Division (UPGD).

Effective January 17, 1983, the Contract Engineering Services Department of the UPGD Engineering Services Segment was replaced by the following organizations: Bellefonte Project Services, Midland Project Services and Supply System Project Services. Please make the foregoing changes to Figure 2 of Topical Report BAW-10096A (Rev. 4).

We have reviewed these organization changes and find that they have no impact on the QA program commitments contained in our Topical Report. The organization changes will be incorporated in the next revision of Topical Report BAW-10096A (Rev. 4).

If you have any questions concerning these changes, please contact Mr. Charles Armontrout (804-385-2473) of our Nuclear Quality Assurance Section.

Sincerely,

*T. L. Baldwin for*  
*J. H. Taylor*  
James H. Taylor  
Manager, Licensing Services
