

August 20, 1982

Docket: 50-382/82-17

Louisiana Power and Light Company
ATTN: L. V. Maurin, Vice President
Nuclear Operations
142 Delaronde Street
New Orleans, LA 70174

Gentlemen:

This refers to the inspection conducted by Mr. L. D. Gilbert, of our staff during the period of July 12-15 and 26-30, 1982, of activities authorized by NRC Construction Permit No. CPPR-103 for Waterford Steam Electric Station, Unit 3, and to the discussion of our findings with Mr. T. Gerrets and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection and our findings are documented in the enclosed inspection report. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of the inspection, no violations or deviations were identified.

One new unresolved item is identified in paragraph 5 of the enclosed report.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
