Sir:

This is to notify you of a change in the staff at the USGS TRIGA reactor facility. The facility Health Physicist, who was hired in December, 1993, has resigned for financial reasons. The process to hire another permanent Health Physicist has been started, with the plan to have a new person on staff by mid-June. In the interim, Richard Perryman will be the designated facility health physicist. Mr. Perryman has been on staff at the facility for over 20 years and served as the facility health physicist last year during our previous search for a permanent health physicist. Mr. Perryman has received formal training in health physics, radioactive waste handling and radioactive material shipments.

If you have any questions regarding this matter, please contact me at (303) 236-4726.

Sincerely,

Tim DeBey
Reactor Supervisor
