Gentlemen:

ULNRC-2986

DOCKET NUMBER 50-483
CALLAWAY PLANT
CULTURAL RESOURCES MANAGEMENT PLAN

- References: 1) ULNRC-2566 dated 2/21/92
2) ULNRC-2620 dated 4/16/92

Reference 1 transmitted our request for a revision to the Callaway Operating License concerning cultural resources sections of Appendix B. The following represents Union Electric's continuing commitment to protect cultural resources on Union Electric property surrounding Callaway Plant.

There are twenty-five cultural resources sites which are considered potentially eligible for nomination to the National Register of Historic Places located on Union Electric property. While only three of these sites are located within the "area of potential effects" of the "undertaking" (i.e., operation and maintenance of the plant) as defined by 36 CFR 800.2, all of the sites are protected through implementation of our Management Plan. A Cultural Resources Management Plan for Residual Lands at the Union Electric Company Callaway Plant, dated March, 1992 (as transmitted by Reference 2), will continue to be used as a basis for compliance with 36 CFR 800.4 through 800.6 and 36 CFR 800.11 for treatment of the twenty-five sites. If a revision to this Management Plan, which changes the essence of the Plan, is contemplated by Union Electric, the Missouri State Historic Preservation Office (SHPO) and the Nuclear Regulatory Commission (NRC) will be notified for consultation prior to implementation of said revision. Copies of any changes will be provided to each agency.

1/0

If it is determined that any of the twenty-five cultural resources sites could be impacted by any new construction or procedure, the new construction or procedure will be altered to avoid the effect or the NRC and SHPO will be contacted for consultation prior to implementation. In addition, should Union Electric become aware of vandalism, malicious looting, or uninformed collecting at any of the twenty-five sites, the SHPO will be promptly notified.

There is the remote possibility that other cultural resources sites identified in the Management Plan not considered eligible for nomination to the National Register may contain useful information. While current land uses are permitted at these sites, any new construction will be permitted only after consultation with the SHPO.

If you have any questions regarding this letter, please contact us.

Very truly yours,

Donald F. Schnell
