Docket No. 50-301

Wisconsin Electric Power Company  
ATTN: Mr. C. W. Fay  
Assistant Vice President  
Nuclear Power  
231 West Michigan Street  
Milwaukee, Wisconsin 53201

Gentlemen:

We have received a copy of your application dated January 19, 1983, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application requested relief from certain ASME Section XI code requirements related to the second ten-year inspection for Point Beach Nuclear Plant, Unit No. 2. Fees pursuant to 10 CFR 170.22 were not remitted with your application as required by 10 CFR 170.22.

Based on information provided by the ONRR staff as the result of their preliminary review of your request, it has been determined that a Class III fee (\$4,000) is appropriate for the request since the review will involve consideration of a single safety issue. Therefore, you are requested to remit the sum of \$4,000 to this office. If the ONRR staff's final review of your request reveals that the Class III fee is not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by:
