additional distribution.

Dear Mr. Murray:

I have considered the matters raised in the October 20, 1982 petition submitted by you on behalf of Safe Power for Maine, Emil G. Garrett, John B. Green, and John Jerabek, requesting that I revoke, suspend or modify the license of the Maine Yankee Atomic Power Company to operate the Maine Yankee Atomic Power Station pending demonstration of adequate financial resources to continue operation and to provide for eventual decommissioning. The petition has been considered under 10 CFR 2.206 of the Commission's regulations. For the reasons stated in the enclosed "Director's Decision Under 10 CFR 2.206," the petition has been denied.

A copy of this decision will be placed in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. 20555, and in the local public document room at the Wiscasset Public Library Association, High Street, Wiscasset, Maine. The decision will also be filed with the Secretary for the Commission's review in accordance with 10 CFR 2.206(c). As provided in 10 CFR 2.206(c), this decision will constitute the Commission's final action in this matter 25 days after issuance, unless the Commission on its own motion institutes review of the decision within that time.

I also enclose for your information a copy of the notice that is being filed for publication with the Office of the Federal Register.

Sincerely,

Original Signed by
H. R. Denton

Harold R. Denton, Director
Office of Nuclear Reactor
Regulation
