Amendment #1

Isotopes Branch
Division of Licensing and Regulation
U. S. Atomic Energy Commission
Washington, D. C.

Attention: John E. Bowyer

In re: License No. 34-01197-01

Dear Mr. Bowyer:

Renewal of our Byproduct Material License No. 34-01197-01
until October 31, 1972 has been received.

On our application dated October 1, 1967, Rose Bengal
(I 131) for use in liver scanning was included as "N"
under Item No. 6 on Form AEC 313. It also appears under
Items 4(a) and (b) and 5(a) on Form AEC 313a.

Our license does not include approval of the use of
Rose Bengal (I 131). Has this use been disapproved or
was this matter overlooked on the application?

Truly yours,

W. J. Fayen, M.D.
Director
Radioisotope Laboratory
