Standardization Project Directorate

Subject: Submittal of Revised SSAR/CDM Cross Reference Material  
for the GE ABWR

- Reference: 1) GE Letter to Document Control Desk, Attention Jerry N. Wilson, subject, "Submittal of SSAR/Tier 1 Cross Reference Material for the GE ABWR," dated September 30, 1993, MFN No. 157-93, Docket No. STN 52-001
- 2) GE Letter to Document Control Desk, Attention R. W. Borchardt, subject, "Submittal of Amendment 34, Non-Proprietary Information to GE's ABWR SSAR and Certified Design Material, Revision 3," dated March 31, 1994, MFN No. 033-94, Docket No. 52-001

Reference 1 submitted Standard Safety Analysis Report (SSAR)/Certified Design Material (CDM) cross reference material for the ABWR. This material consists of tables which identify the relationship between SSAR safety analysis assumptions and the Inspections, Tests, Analyses and Acceptance Criteria (ITAAC) defined in the ABWR CDM.

GE has revised these tables to reflect: a) the ABWR design as defined in the ABWR SSAR Amendment 34, 23A6100 Revision 4, (Reference 2) and b) the revised ABWR ITAAC entries in CDM Revision 3, 25A5447, (Reference 2). Enclosed are thirty-four (34) copies of the revised cross reference material. This attached information is consistent with ABWR SSAR Tables 14.3-1 through 14.3-10. Per earlier GE/NRC agreements, the cross reference material will not be included in either the ABWR SSAR or the Design Control Document (DCD).
