Gentlemen:

This refers to the inspection conducted by Ronald A. Caldwell of this office during the period of January 3-7, 1983, of activities authorized by NRC Operating License R-83, and to the discussion of findings with P. E. Feltz and other members of your staff at the conclusion of the inspection.

The inspection related to your program and activities designed to protect against industrial sabotage and to safeguard special nuclear material. The inspection was based on the applicable provisions of Title 10, Part 50 of the Code of Federal Regulations entitled "Licensing and Utilization Facilities," within Part 70 entitled "Domestic Licensing of Special Nuclear Material," and the specific requirements of NRC Operating License R-83. Areas examined during the inspection and our findings are documented in the enclosed inspection report. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of the inspection, no violations or deviations were identified.

The documentation of findings of your control and accounting procedures for safeguarding special nuclear materials and your facility's security procedures are exempt from disclosure. This exemption is covered within Title 10 CFR Part 2, Section 2.790(d) entitled "Rules of Practice for Domestic Licensing Proceedings." Therefore, the inspection report will not be placed in the Public Document Room and distribution will be limited.
