Re: USNRC License No. 21-26145-01
Information Notice

Gentlemen:

Professional Service Industries, Inc. (PSI) is providing the following as an information notice to USNRC Radioactive Materials License No. 21-26145-01:

Mr. Bill Foster shall serve as "interim" Radiation Safety Officer (RSO) for the license. Mr. Foster obtained a B.S. degree in Civil Engineering from Michigan Technological University (1986) and has been employed by PSI since 1986. Mr. Foster was certified as a moisture/density gauge operator in accordance with currently licensed (PSI) procedures in July, 1986 and as an RSO in accordance with PSI's Moisture/Density Gauge Radiation Safety Officer (RSO)/Instructor training program in November, 1990. (Copies of Mr. Foster's current resume and training certificates are attached.)

This information has been provided to update the USNRC as to PSI's activities involving licensed material (moisture/density gauges). PSI will request an amendment to the license to formally change the license RSO once a permanent replacement is designated.

Your attention to this matter is appreciated. Should you have any questions, please do not hesitate to contact me at 708/691-1490 (x 320).
