Docket No. 50-320

Mr. Bahman Kanga
 Director, TMI-2
 GPU Nuclear Corporation
 P.O. Box 480
 Middletown, PA 17057

Dear Mr. Barton:

Subject: Recovery Operations Plan Change No. 15 (Recovery Operations Plan Change Request No. 12)

- References: (a) Letter from J.J. Barton to L.H. Barrett, same subject, dated April 21, 1982, 4400-82-L-0052.
 (b) Letter from J.J. Barton to L.H. Barrett, same subject, dated July 2, 1982, 4400-82-L-0087.

The Nuclear Regulatory Commission Staff has reviewed your Recovery Operations Plan Change Request No. 12 forwarded in reference (a) and your amended Recovery Operations Plan Change Request No. 12 forwarded in reference (b). The change contains, in part, various editorial changes in the sections concerning the Control Room Emergency Air Cleanup System, the Fuel Handling Building Air Cleanup System, and the Auxiliary Building Air Cleanup System. In addition, the change revises the surveillance requirements for the above systems to more nearly reflect actual system requirements, updates references to the most recently issued ANSI Standards and, in general, clarifies the surveillance requirements.

The staff approves your change request since the changes do not represent a reduction in safety and in some cases more stringent requirements are imposed to insure the systems are operating properly. In addition, the clarification of the requirements will allow less chance for misinterpreting the requirements which also enhances safety.

We therefore, are enclosing the amended sections (ROP Change No. 15) to the Plan.
